Experience

Salesforce Developer - Atos Global IT Solutions (27th July 2018 – Present)

Project 1 (Salesforce Marketing Cloud Developer)

- Worked on Salesforce Marketing Cloud as Developer.
- Created Data extensions to accommodate custom scenarios.
- Designed several Journey's using Journey Builder.
- Automated import, extract, send mail and query activity using Automation Studio.
- Used AMP Script to use data from Data Extension.
- Used Marketing Cloud Connector to connect CRM to marketing Cloud.
- Used AMP Script, HTML, CSS and JavaScript to create several Cloud Pages and Email Templates/Messages.
- Used AMP Script to send data from cloud page to Salesforce CRM.
- Implemented Rest API to directly import records Into data Extension.

Project 2 (MuleSoft and Salesforce)

- Use MuleSoft for data migration from Client's existing system to Salesforce.
- Migrated Data from Files and Siebel system to the Salesforce.
- Another Part of this Project was Developing an API to Store/retrieve data in Salesforce Objects.
- This project has helped me to learn about the Integration of Salesforce by using MuleSoft as Middleware.

Project 3 (Salesforce, Marketing Cloud, MuleSoft)

- Worked on MuleSoft to create API's for Client Registration Platform.
- Used HTTP Connectors for Get/Post call in salesforce.
- Implemented Invite Members scenario using Marketing Cloud and MuleSoft.

Technical Skills

- Journey Builder
